Claims 5-7 are objected to because of the following informalities: the meaning of "at and after" is unclear since this is not mentioned in the specification. Appropriate correction is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 48-52090.

JP '090 discloses rectangular body A and grip-shift stopping means D,2. Note that the physical structure of the grip-shift stopping means is very broadly recited.

The other references cited on Form 892 disclose similar grip-shift stopping means.
